The Achieve Systems Ambassador Program was created to provide us the opportunity to team up with industry leaders like you and grow our community while you earn outstanding financial rewards and have systems to take your business to the next level. An Achieve Ambassador is someone who wishes to add this as an incredible income stream in their business, wants to grow community, referral and collaborative relationships and use our millions of dollars of resources. It is our objective to create the perfect win-win relationship.

When awarded an ambassador role you receive a regional exclusive and we grow new members in your area as a team. You are also upgraded to our \$10,000.00 platinum membership program for FREE with full access to all resources to grow your business including our leadership training and programs. As for the financials, you earn between \$1000 - \$6500 for every member that you bring in, you get passive income monthly for all members in your area and most importantly you are growing a community of professionals in our industry that you can collaborate and grow referral relationships with. Achieve Ambassadors can simply plug this into their business and grow every aspect of their business as everyone works in harmony with each other.

This can become the best move any business owner in our industry makes if you have an average of an hour a day to perform as an ambassador and create leads to grow the community with our training and on-going support.

"I am so proud to be a part of the Achieve Systems team as we are growing the largest community of wellness & health professionals in the world. It is so rewarding & profitable!"

What Can I Earn as an Ambassador?

Ambassador Financial Example for bringing in members:

Get just 10 who join earn between \$10,000 and \$70,000.00
(scholarship to CEO)

Get just 20 who join earn between \$20,000 and \$140,000.00
(scholarship to CEO)

Get 50 who join earn between \$50,000 and \$350,000.00
(scholarship to CEO)

Of course, you probably won't bring in 50 CEO programs in a year, but the opportunity is there if you get in front of the right people. This can be used as a strong revenue stream to supplement your income or even a power move to help grow wealth.

The cool thing is, we have a program for everyone in the wellness and health industry. If they help people, we want them! If someone is financially challenged and has no money, we simply set them up with on a scholarship program and you earn \$1000.00 when they fulfill their obligation. This allows you to bring in people who normally could not come in.

80% of the population in the wellness & health community can afford the gold or platinum programs and you immediately earn upon sign up.

Around 5% of the health industry population can consider a CEO Program so this is a targeted market not for everyone but, if you get in front of these people you have the program for them and you earn greatly from it.
