Paid commission notes

Scholarship notes: Remember, if you refer someone who can't afford the initial investment and they are awarded a scholarship you are paid immediately as we get paid. You have the ability to refer a scholarship person, which is someone who is not financially successful and needs more support to join our program. We will provide that support up front by providing them full access then we recover our investment in them, and you get paid commission as they fulfill their scholarship as above.

A scholarship person is under contract to refer someone within 12 months on a gold level program or higher or pay \$2500.00 at 12 months which is ½ of our original entry fee of \$4995.00. Your commission totals are laid out in the above chart based upon the quality of a member they are and how they handle their scholarship obligation.

Partial Payments: Achieve Systems will sometimes provide commissions on partial payments if a refer you send us goes on a payment plan. Contact your achieve coaching leader for details.

Collection Accounts: If someone joins and goes into default they go to collections. No commissions are earned on collection accounts.
